

## Change the login password on Mac

https://support.apple.com/en-gw/guide/mac-help/mchlp1550/10.15/mac/10.15

It's important to change your login password from time to time to protect your privacy.

If you've forgotten your login password you'll need to reset it. See <u>Reset your Mac login</u> password.

*Note:* Your login password is the password you enter to unlock your Mac when you turn it on or wake it from sleep. It is not your Apple ID password, which provides access to the iTunes Store, App Store, Apple Books, iCloud, and other Apple services.

1. On your Mac, choose Apple menu € > System Preferences, then click Users & Groups.

Update Apple	e ID Settings						Details
General	Deskton &	Dock	Mission	Siri	Spotlight		Notifications
	Screen Saver		Control			& Region	Notifications
Internet Accounts	Users & Groups	Accessibility	Screen Time	Extensions	Security & Privacy		
<b>6</b>		*					
Software Update	Network	Bluetooth	Sound	Printers & Scanners	Keyboard	Trackpad	Mouse
	J		*	٩		$\langle \mathbf{v} \rangle$	
Displays	Energy Saver	Date & Time	Sharing	Time Machine	Startup Disk	Profiles	

## 2. Click Change Password.

- 3. Enter your current password in the Old Password field.
- 4. Enter your new password in the New Password field, then enter it again in the Verify field.

For help choosing a secure password, click the Key button **?** next to the New Password field.

5. Enter a hint to help you remember the password.

The hint appears if you enter the wrong password three consecutive times, or if you click the question mark in the password field in the login window.

6. Click Change Password.

Current User	Old password:	
Rest-iMac Admin	New password: ••••••• ange Pas	sword
▼ Other Users Guest User Login only	Verify:	
Groups	Password hint: hint	
	Contacts Card, Open	
<b>^</b>	Allow user to reset password using Apple ID	
Login Options	Allow user to administer this computer
