

macOS Mojave 10.14 Self Service Installation

To install macOS Mojave 10.14 on your Macintosh via the Weizmann Institute Self Service app, perform the following:

1. Ensure that your Macintosh complies with the macOS Mojave 10.14 minimum requirements by referring to https://support.apple.com/kb/SP777?locale=en_US.
2. Launch the Weizmann Institute Self Service app and select **OS X Upgrades** on the app's left-hand category pane.

3. Locate **Self Service Mojave Upgrade** on the right-hand pane and click the **Install OS X** button underneath it to initiate installation.
